

Example of Fee Calculations

Tim is entering two events (Breakaway 65 + and Team Roping 60+) for 2 days of Rodeo's. He will need two stalls and a power plug in for one night only

First Calculate one event

Finals Fee \$2.63

Office Fee \$7.50 *****(Finals Fee, Office Fee and Admin Fee are charged once per rodeo)*****

Admin Fee \$ 6.30

Entry Fee \$50.00

Event Fee \$5.00

Total = **\$71.43**

Second Event (and subsequent events)

Entry Fee \$50.00

Event Fee \$5.00

Total = **\$55.00**

Entry fees for 2 Events for one day will equal \$71.43 + \$ 55.00 = **\$126.43**

Tim is entering 2 days so entry fees will be \$126.43 x2= **\$252.86**

Third there is a facility fee charged per each location

\$10.00 + \$252.86 = **\$262.86**

Fourth Now to Calculate the additional Fees (See each rodeo listing to find these fees)

Medical Service Fee \$2.00 (this is per rodeo) \$2.00 x 2 rodeo's = \$4.00

Power Plug in =\$20.00

Stall \$20.00 x2 = \$40.00

\$4.00 + \$20.00 + \$40.00 + \$262.86 = **\$326.86**

Now if Tim happened to Medical out, Vet out

For a Legitimate Medical or Vet out Tim would still need to pay

Finals Fee \$2.63

Office Fee \$ 7.50

Admin Fee \$ 6.30

Total = \$16.43
